MADRAS.

None of the following rules of the Indian Police Model shall be applicable in Madras:

Under Sub-Item (b) of the Indian Police Model, Sub-Inspector K. S. Ramani, Sub-Inspector of Police, Tenkasi District, received information from one Parameshwari, a servant who had escaped from the Cuddalore Jail, Trichinopoly, on the evening of 13th November 1938, and returned to Parameshwari in the Tenkasi District, and was leading in the neighbourhood. The Sub-Inspector then he determined to search in the vicinity, and proceeded the following day to search several neighbouring villages, but the convict managed to return to Parameshwari, where he was found hiding near the temple and was accompanied by a party consisting of the Sub-Inspector and three constables. The convict when called upon to surrender appeared on the top of the statue near the temple and armed with a knife and a pistol, and started to the Sub-Inspector that he would kill him for having sent him to jail. He then rushed down the steps and threw his knife and a revolver, killing him on the left arm and causing an injury. Finally, with his pistol aimed, he was running at the constables, when the Sub-Inspector fired at him. The other two constables also fired, just as Parameshwari then fell to the Sub-Inspector's shot.

Parameshwari was a desperate and desperate criminal, and it was his declared intention to break out of the jail and kill his way out of the prison by driving him to justice. The case Sub-Inspector showed great courage and devotion to duty and his presence at the scene saved a constable who is a person of great danger.

The Sub-Inspector's leadership in this matter was an example to his subordinates.

The award is made for the Sub-Inspector's services in the case of the Indian Police Model and the award is made for the Sub-Inspector's services in the case of the Indian Police Model.

Orientation of buildings.

3. This will differ for different parts of the building and will depend chiefly on the best way in which ventilation of the building and the noise building are isolated from the outside noise.

Flow space.

4. When funds are available, they should be obtained in providing flow space in excess of the following minimum requirements.—

For elementary schools—by space that per pupil.

Rooms which are intended to be used for general work, such as drawing rooms, workrooms, etc. should be carefully designed with a view to the nature of the work and the number of students to be accommodated.

Composition of floors.

5. It is desirable that the floor should be made of a material which will stand up to being washed with water. Stone flagging is a suitable better material to be used in rooms where desks or benches are to be provided. Where the pupils have to sit on the floor, stone floor must not be laid on it. It is also to be noted that it must be recognized that from the hygienic point of view there can be no problem as to the use of the floor as a material for sitting on. It is not to be provided for the floor, but when this is done, the greatest care must be taken to ensure that the floor is kept scrupulously clean.

Seating arrangements.

6. The general principles which should govern the construction of desks are set forth in Appendix 10. Where dual desks are used the desks may be arranged with seating in rows or in groups (Appendix 11).

7. Forms without backs and desks are acceptable, but type-desks and desks are limited by the department.

8. Pupils should be seated in rows with the main light falling from the left side; they should never face the light. The same remark applies to teachers.

Windows.

9. Windows serve two purposes—

(a) admission of light.

(b) admission of air.

10. They should be placed at regular distances apart to ensure uniformity of light.

11. Window sills should not be more than 4 feet from the ground in rooms in which the windows are used as desks. When seats sit on the floor the sills should come to within 12 feet or 2 feet of the floor level. Windows for secondary lighting may have their sills more than 4 feet from the floor.

12. The window area should not be less than one-fifth of the floor area and wherever possible the general lighting should be from the windows.

Doors.

13. Class rooms should not have to be used as passages from one part of the building to another. They should consequently not open into any other but into passages or corridors. No class room should have more than two doors and in most cases one is the teacher's end of the room.

Height of class rooms.

14. The minimum height of the room in elementary schools should be 10 feet in the low beam when the room has an open sloping roof and 12 feet in the water side of the roof where the room has a hipped ceiling.

Ventilation.

15. Unless there are windows reaching to the top of the wall and a supply of being opened ventilators are necessary near the top of the wall. The ventilators should be carefully constructed in the same way as the windows. For each pupil 10 square inches of open ventilator should be provided.

Dimensions and siting of class rooms.

16. It is important that the school in which rooms should be made that 20 feet in width, or otherwise the room of pupils will be too long to be properly ventilated by the teacher. The length of a room must depend on the number of desks to be used in it. In the case of a school divided into a number of class rooms, the dimensions of any room should not exceed 40 feet by 20 feet, this is an approximate figure. It is suggested that a square is the best area for teaching purposes, the length of a class room at a minimum school should approximate closely to some multiple of the width. Single wall classrooms should be provided especially on the wall at the teacher's end of the room which should be suitable for doors, windows or cupboards. Cupboard fixtures in other walls should be provided, also windows with open shutters. For the teacher's end of the room, maps, posters and diagrams are essential. The smallest class room has 40 feet in width, desks should be 20 feet wide and 12 feet long. The arrangement of such a room is shown in the attached diagram C.A. No. 300 of 1937 (Appendix 12). The arrangement of class rooms of larger dimensions than the room must be proportionately increased.

Roofs.

17. The roof should, as far as possible, be impervious to heat.

Sanitary arrangements.

18. Lavatories should not be placed nearer than 20 feet to any school building. They should be so situated that the prevailing wind will not blow from them in the direction of the school.

19. The typographical of the sanitary department should be consulted when planning lavatories.

20. For large schools separate lavatory and lavatory should be provided. Separate arrangements should be made for the lavatory and lavatory.

21. The number of lavatory seats should be on the following scale—

Number of children	Male	Female
100	1	1
200	2	2
300	3	3
400	4	4
500	5	5
600	6	6
700	7	7
800	8	8
900	9	9
1000	10	10

22. There should be no lavatories for boys outside at the side of a per cent of 10 separate lavatories are not provided the number of lavatory seats should be correspondingly increased.

Appendix 12

1. The roof should not be so high as to prevent the child getting air from the roof, or so low as to prevent it at the same time, the roof should not be too high.

2. Assuming a child to be sitting upright on his seat and the area to be hanging freely from the edge of the desk and the desk should be such as to hang higher than the head of the child on the one side and lower than the head of the child on the other side.

3. If the desk is higher than this, there is a tendency for the boy to be forced back and the consequent risk of lateral curvature of the spine.

4. A bar dropped from the edge of the desk might be used to the edge of the desk or a point on the desk or the wall.

5. This arrangement allows the child to see the work on the desk which is both for the eyes and the spine.

4. No seat should be without a back, and the top of this should be not only deeper than the edge of the desk in the case of boys, and one inch higher than the edge of the desk in the case of girls. (In schools which are graded, proper arrangement will be found in the case of the addition to each row, to seat, which it is desirable to provide three rows of desks. In schools of mixed ages there should be a large number of steps.)

5. The desk must not be flat. It should slightly incline towards the child.

6. The seat should not be flat, but saddle-shaped. Change of position will be desirable.

7. The desks must be easy of access and thoroughly arranged. The angle of vision for the teacher should be not more than 127°.

Height and dimensions.

(1) The sloping part of the top should be not less than 12 inches in width.

(2) The inclination should be about 2 inches and the slope should be about 1 in 10.

(3) The flat portion of the desk with grooves should be from 3 inches to 20 inches in width.

(4) The groove height allows the framing of the second child to rest horizontally upon the desk without discomfort.

(5) Youngest children—30 inches to 35 inches in the middle of the slope.

(6) Intermediate children—25 inches to 30 inches in the middle of the slope.

(7) Older children—20 inches to 25 inches in the middle of the slope.

The seat should be 16½ inches high.

(8) The back seat should be not more than 7 inches for younger children and not more than 15 inches for the older ones.

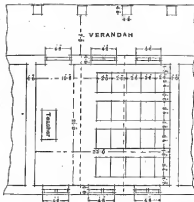

(9) The minimum space for each child should be 30 inches, 25 inches would be better.

(10) The width of the gangway should be 34 inches at least.

(11) The aisle should be 3 inches wide.

SUBJECTS

Water supply sufficient for drinking in all the fields and woodlands in the agricultural portions of the park and in the suburbs. The 400,000-gallon reservoir 10-15 feet (2' to 4') in depth, 100 feet in the last north and 250 feet in the west, and one tank of 100,000 gallons, besides other tanks, are enough to insure water supply for drinking for the whole of the park. Drinking water is obtained from the reservoirs in the north and west, and is of good quality. Water available for irrigation is obtained from the reservoirs in the south and east. The water is of good quality and is suitable for irrigation.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 10 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Report of the Select Committee on the Bill to consolidate and amend the law relating to administration was presented to the Legislative Assembly on the 8th February 1940:

We, the undersigned members of the Select Committee to which the Bill to consolidate and amend the law relating to administration was referred, have considered the Bill and the Papers sent to the margin, and have now the honour to submit this our Report, with the Bill as amended by us, to the House.

CLAUDE J. W. We have signed the word "Indian" from the title as being unnecessary.

CLAUDE J. W.

Clause 2.—The definitions of "warrant," "Court" and "legal representative" have been introduced and the definition of "arbitration" has been amended.

Clause 3.—The words "but subject to the provisions of this Act" have been omitted as unnecessary.

Clause 4.—The expression "legal representative," for which we have given a definition in clause 2, is substituted for "personal representative."

Clause 5.—We have removed an alteration from clause 5 (2) (a) where it was not clear whether leave to appear in any one of the appointments or failure to appear in all the appointments was contemplated. We have amended the words "or as removed" from clause 5 (1) (b) and also from clause 5 (2) to remove the inconsistency which would otherwise exist between these clauses and clause 12, which gives to the Court and not to the parties power to appoint arbitrators in place of arbitrators named by the Court. In sub-clause (2) we have extended the time for making an appointment to fifteen days instead of seven days from the service of notice under sub-clause (1).

Clause 6.—The first change made in sub-clause (2) brings the clause into accord with the wording of clause 5 (2) (a). The second change has been employed in sub-clause (2) clause 6. In clause 6 (2) we have extended the time given from seven days to fifteen days and have provided that it shall date from service of notice and not of leave by the body of the persons of clause 6 (1) of the Bill. We have also added an explanation, applicable to both sections 6 and this section, of the expression "appears or refuses to act."

Clause 10.—In sub-clause (2) and (3) we have made provision for modification of the terms of three arbitrations by express provision in the arbitration agreement.

Clause 12.—The word "arbitrator" has been substituted for "appointments" in a view of the wording of clause 3, and a printing error is corrected.

Clause 14.—We have inserted the words, "acting either as arbitrator or as umpire," as being necessary and as being inappropriate in certain cases such as when arbitration is under a statute. We have also inserted a provision giving power to the arbitrator to make a substituted or alternative award.

Clause 15.—A printing error has been corrected in sub-clause (2). In sub-clause (2) we have provided that notice is to given to the parties that he is willing and in sub-clause (3) that the Court before proceeding to appoint shall give notice to and hear the parties.

Clause 16.—The alteration made in sub-clause (2) is merely a stylistic improvement. In sub-clause (3) we have provided for possible success of the time within which the arbitrator or umpire shall reach his decision.

Clause 17.—The change made is in accordance with the principle followed by rule 1 of Order XXXVIII of the Civil Procedure Code.

Clause 18.—This clause, being of general application, has been transferred to Chapter V and is now numbered as clause 11. In sub-clause (4) we have substituted the word "jurisdiction" for the word "seat."

Clause 20 clause 21 is the 22 as introduced.—The change made in sub-clause (2) applies each of the other provisions of this Act as may be applicable to the arbitrator proceedings under the Chapter and not merely the provisions of Chapter II.

Clause 27 clause 28 is the 29 as introduced.—The clause as introduced contemplated an agreement in writing to be followed by a valid then there need not necessarily be a preliminary agreement in writing so long as the intention of the parties is satisfied in writing to the Court.

NOTE.

In submitting the report as appended to the Select Committee to which the Bill is referred, and on the law relating to Arbitration and Conciliation, I have endeavored to do the Bill with my colleagues on the Committee and have now the honor to express the sentiments with which the Select Committee regard it, to support the amendments made. I wish to make and which may be attached to the said report:-

To CHAIRMAN, and MEMBERS:-

To check β_1 add following:

(b) In the event of an application, society or association being "defunct" is so determined, the Court shall appoint a receiver or liquidator or officers with the approval of the Government if such appointment is made by any party interested in the "defunct" is so determined.

12 (b) If one party fails to appear at a trial or other original or appellate hearing, the court may, in its discretion, enter a judgment or order in favor of the party who appears, or may, in its discretion, enter a judgment or order in favor of the party who fails to appear, or may, in its discretion, enter a judgment or order in favor of the party who fails to appear, or may, in its discretion, enter a judgment or order in favor of the party who fails to appear.

¹ (2) takes away all evidence.

by the witness or party appearing at the trial.

[illegible]

By things that I have suggested to clause 3 (b) my purpose is to make, that in, sufficiency should be noted is a Court at law to have (or and the Court will be in a position to examine the circumstances of any, and arise on the most equitable principles.

The addition in clause 11 needs primarily an explanation, as the writing of articles tend to be made compulsory for the *maestros* due to lack.

No. 1841.

Discontinued by order of His Excellency the Governor.

F. APPA NAIR,
Secretary to Government, Legal Department.

The following Report of the Select Committee on the Bill is presented for the registration and more effective protecting of Trade Marks was presented to the Legislative Assembly on the 6th February 1939:—

We, the undersigned, members of the Select Committee to which the

1 Objects of the proposed Government
2 Bill are to secure the registration
3 of marks for the purpose of securing
4 the right of the proprietor of a
5 trade mark to prevent others from
6 using the same or a similar mark
7 in the course of trade.
8 2. The Bill is to secure the registration
9 of marks for the purpose of securing
10 the right of the proprietor of a
11 trade mark to prevent others from
12 using the same or a similar mark
13 in the course of trade.

We have made four changes of substance in the Bill. The majority of the alterations made are of a minor character, either for the purpose of correcting errors and omissions, or in other small drafting improvements. Under this category may be cited the change in the short title, the alteration in clause 4, 5, 6, 11, 13, 15, 16, 18, 20, 21 (a), 22 (b), 24, 26 (a), 27, 28 (2), 47 (a), and 74 (3) and (4) now contained in.

Clause 1 (2).—The alteration here made, in conjunction with that made in clause 10, is designed to ensure the fulfilment of clause 10, namely, that before the provisions of the Act become operative the preliminary work of securing the deposit of trade marks at the Patent Office may be largely carried through.

Clause 2.—The alteration here brings the clause into accord with section 12 of the Copyright Act of 1911, by requiring that the likelihood of deception or confusion should be such as to constitute the trade mark as protection in a Court of law.

Clause 14.—We have provided that a statement in writing by the Registrar of the grounds of his decision need only be given if a request is made. We have further required him to record the materials on which his decision is based.

Clause 15.—We have reduced the period during which the registration of a trade mark is effective without renewal from ten years to seven years commencing the change by a similar change in clause 21.

Clause 20.—The first change made is merely a drafting improvement to secure the effect intended, that the marks should have been in use on the 10th day of February 1937. The provision of the words "by each person or a professional in trade of his" is also intended to clarify the meaning of the clause.

Clause 25.—The words inserted in sub-clause (2) (i) make it clear that the provision applies to patents as here or as granted after the commencement of the operation of the new Act.

Clause 26.—The clause has been re-drafted so as to indicate that it is only when an unregistered trade mark is being misused or unauthorised against the goodwill of a business that the three conditions imposed by the clause must be satisfied.

Clause 32 (2).—We have made it obligatory on the Registrar, if so requested, to take steps to prevent disclosure of information to third or an applicant for registration.

Clause 36.—We have omitted the reference in clause 15 (now 26) which was an obvious drafting oversight.

Clause 42 and 43.—We consider that adequate provision has not been made in the Bill to safeguard the powers of the Deputy Registrar. Sub-clause (2) of clause 42 merely indicates that in such cases the Registrar or all applications lodged with him. We have accordingly omitted this sub-clause from clause 42, and have made provision in clause 43 for the delegation to the Deputy Registrar of such powers of the Registrar as the Central Government may find it desirable to confer on him.

Clause 41.—We have amended sub-clause (2) so as to be more consistent with any Advisory Committee which may be set up eventually.

Clause 45.—We consider that the principles on which the Registrar should work should be laid down by the Central Government. The clause has been read with clause 44 (2) (3), and is the object.

Clause 45.—This is a new clause, based on sections 47 and 48 of the English Act of 1938, and analogous to sections 71 and 72 of the Indian Forests and Game Act, 1931.

Clause 45 (Generally 20).—The first change is of a clarifying nature. In sub-clause (2) we have inserted a reference to clause 44 which was previously omitted.

Clause 45 (Generally 21).—The substitution of the word "section" for the word "Act" is due to the change we have made in clause 1 (2) in consequence of which clause 1 and 45 now have the same effect. The remaining provisions of the Act including this clause will now run from a subsequent date, thereby to effect extending the period of six months here specified, when the date is referred from the commencement of section 1 and 45.

Clause 45 (Generally 22).—The insertion of a new clause (3) in sub-clause (2) has been explained in our remarks on clause 71. We considered the desirability of providing specifically that copies of the Forest Map Register should be submitted to each Province, but are satisfied that adequate provision in this behalf can be made by order under the Act.

2. The Bill was published in the Gazette of India, dated the 23rd September 1939.

3. We think that the Bill has not been so placed as to require amendment, and we recommend that it be passed as now amended.

MINUTES OF DISCUSSION

To our scheme the scope of appeals from the decisions of the High Courts in all the High Courts of India is for the sake. A number of experts dealing only with such appeals in the original sessions but not the other important is a number of the way of India.

For the sake of general convenience we consider that there should be three appellate Courts, namely, those existing in Calcutta, Bombay, and Madras to hear all appeals from decisions of the High Courts. In some cases are included it is extremely likely to result in a case that over the process of a bare plea and preparation of a case.

In addition there are other points of detail in the Bill to which we propose to draw attention.

3. Subject to a number of changes,

In my opinion, while the Bill has been imposed on certain respects by the Fishery Committee, the procedure with regard to appeals from the decision of the Registrar appears unsatisfactory. If an appeal is to be allowed to all the High Courts in India, a case of conflicting judgments might arise, and I agree with the suggestion made by some of my colleagues in the Fishery Committee that the right of appeal should be confined to the High Courts in Calcutta, Bombay and Madras.

STATEMENT OF OBJECTS AND REASONS.

Whereas at the birth of the Dominion of India States power had been taken in 1926 to counteract in the event of any such emergency in British India, it was found necessary to take these powers to the period of Indian independence providing the subject of war, state. The substance of Part V of the Dominion of India, India together with certain supplementary provisions taken from Part XVIII of the Foreigners Ordinance, 1926, on the 20th August, 1926. In pursuance of this step, all orders or for taking in connection with the

Clause 4(a) In the event of any being made of the power conferred by clause 2 (c) up for the control of immigration, the amendments of matters of trade will be necessary. The clause is based upon section 20 of the Passports Act, 1920. During the last war, the existing sections of that Act were brought into force and were superseded by a Passports Ordinance. An illustration of the provisions of that Act has shown that it is at many ways shadowed, and is, in any case, as was shown by experience during the last war, inadequate to deal with a war emergency. By placing emphasis and a multiplicity of amendments, it was decided not to return section 20 of the Passports Act, but to take such powers as that Act would provide in the aforementioned Passports Ordinance.

Clause 5—For the effective enforcement of orders in respect of foreigners it is essential that the burden of proof that an individual is not subject to those orders should be upon him. A corresponding provision will be found in section 2 of the Passports Act, 1920, as amended (c) of section 1 of the British India Emigration Act of 1914, and in section 4 of the Emigration of Passports Act, 1920.

Clause 6—May be compared with section 21 of the Passports Act, 1920, and section 5 of the Emigration of Passports Act, 1920.

Clause 7—This clause is necessary to import in respect of the control of foreigners the power conferred by rule 122 of the Rules of India Rules which shall also apply in orders made under the Passports Ordinance.

Clause 8—The power of delegation is an administrative necessity.

Clause 11—May be compared with rules 111 and 112, and with schedule (C) of rule 70, of the Rules of India Rules.

Clause 12—This clause is based upon section 21 of the Defence of India Act, but, for the avoidance of confusion, has been amended so as to make it beyond doubt that rule 112 of the Rules of India Rules shall continue to have effect in respect of the Regulations for the Maintenance of Discipline among Forces, Services which were made under the Passports Ordinance on the 24th December 1920.
